

Rabbit Anti-PSMD11 Polyclonal Antibody

DESCRIPTION

Product Type	Primary Antibody
Cat.No.	AMS.BT-AP07459
Host	Rabbit
Size	20ug 50ug 100ug
Immunogen	The antiserum was produced against synthesized peptide derived from human PSMD11. AA range:271-320
Mol wt	42kDa
Species Reactivity	Human,Mouse
Clonality	Polyclonal
Recommended Application	WB,IHC-p,ELISA
Concentration	1 mg/ml
Full name	26S proteasome non-ATPase regulatory subunit 11
Also Known As	PSMD11; 26S proteasome non-ATPase regulatory subunit 11; 26S proteasome regulatory subunit RPN6; 26S proteasome regulatory subunit S9; 26S proteasome regulatory subunit p44.5

**This product is for research use only, not for use in diagnosis procedures. It's highly recommend to read this instruction entirely before the use.*

BACKGROUND

The 26S proteasome is a multicatalytic proteinase complex with a highly ordered structure composed of 2 complexes, a 20S core and a 19S regulator. The 20S core is composed of 4 rings of 28 non-identical subunits; 2 rings are composed of 7 alpha subunits and 2 rings are composed of 7 beta subunits. The 19S regulator is composed of a base, which contains 6 ATPase subunits and 2 non-ATPase subunits, and a lid, which contains up to 10 non-ATPase subunits. Proteasomes are distributed throughout eukaryotic cells at a high concentration and cleave peptides in an ATP/ubiquitin-dependent process in a non-lysosomal pathway. PSMD11 encodes a member of the proteasome subunit S9 family that functions as a non-ATPase subunit of the 19S regulator and is phosphorylated by AMP-activated protein kinase. Alternatively spliced transcript variants have been observed for PSMD11.

RECOMMENDED DILUTION

Western Blot: 1/500 - 1/2000

Immunohistochemistry: 1/100 - 1/300

ELISA: 1/10000

STORAGE

PBS with 0.02% sodium azide and 50% glycerol pH 7.3. Store at -20°C. Aliquoting is unnecessary for -20°C storage.

IMPORTANT NOTE

This product as supplied is intended for research use only, not for use in human, therapeutic or diagnostic applications.
