

Certificate of Analysis

Rat Neural Stem Cell (RNSC) Differentiation Medium is designed to promote differentiation of RNSC in culture as suspended neurospheres. This medium is sterile filtered and fully supplemented with fetal bovine serum and antibiotics. Rat Neural Stem Cell Differentiation Medium is bicarbonate buffered and is ready for use in the differentiation of RNSC.

Product Name: PrimaPure™ Rat Neural Stem Cell Differentiation Medium
Quantity: 250 ml
Cat. No.: SMRD813250

Quality Control:

Bioassay: Each lot is tested for the ability of Rat Neural Stem Cells to differentiate into neurons, astrocytes and oligodendrocytes within 10 days when cells were cultured in this differentiation medium.

Sterility Test: Negative for bacteria, yeast and fungi.

Storage & Stability: Avoid exposure to light. Stable for 2 months at 4°C.

For research purposes only. Not for diagnostic or in vivo use.
